Anglia Examinations Sample Paper

Section R1 (12 marks)

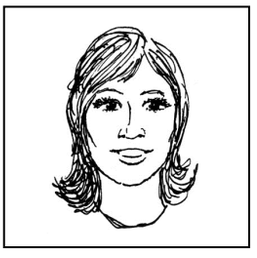

Read the passages about Agnes and Bertha and answer the questions. For each question, choose either A(Agnes) or B(Bertha). You need to choose each person more than once.

Marks Awarded

I'm Agnes and I'm 54. I live in a small apartment in Brighton with my husband, Pete. We can see the beach from our window. Our friends live next door to us. I'm a train driver and I work most days but not Sunday and Monday. Next week, we are going to visit our friends who live in Dubai. It will be my first time on a plane so I'm scared!

Agnes (A)

My name is Bertha. I'm 56 years old and I live in a house in the countryside. There are no other houses near us. I am a school teacher in a village near our home. I teach three days a week, on Monday, Tuesday and Wednesday. There are 15 children in my class. My husband works in London. Next weekend, we are going to Italy for a holiday. I have flown many times but I am always excited.

Bertha (B)

Which person, A(Agnes) or B(Bertha),...

is older?	*example*	*B*
lives near the sea?	1	
lives near other people?	2	
works with children?	3	
works on Mondays?	4	
is seeing her friends at the weekend?	5	
has never flown before?	6

Anglia Examinations Sample Paper

Section R2 (13 marks)
Read the passage and answer all the questions.

Marks Awarded

The Babirusa

The *babirusa* is one of the world's strangest looking animals. It lives in Indonesia, on islands like Sulawesi and Togian. The name *babirusa* means 'pig-deer'. The animal has a head which looks like a pig, but the long legs and body look more like a deer. The *babirusa* is in fact part of the pig family. The largest *babirusa* lives on Sulawesi island. This *babirusa* is most famous for its very strange, long teeth. These teeth are called *tusks* and they grow up high above the head, then backwards, almost in a circle.

There are four different species of *babirusa*. In the wild, they live for about 10 years, but a *babirusa* in a zoo can live to be about 20. A male *babirusa* lives alone, but females and young *babirusa* live together in groups of between 30 and 80.

Babirusa choose to live near rivers, where the ground is soft. They will eat almost anything, including nuts, fruits, mushrooms, insects, fish and small animals. Now, many *babirusa* have to live in the mountains. This is because it is not safe to live on low ground. There are many people there who are cutting down the forests. In Indonesia it is illegal to kill *babirusa*, but people still hunt them for food.

For questions 1-3, please answer in complete sentences. (2 marks each)

1. Where in the world do *babirusa* live?

2. How many different kinds of *babirusa* are there?

3. Why do many *babirusa* live on high ground?

Anglia Examinations Sample Paper

For questions 4-8, tick (✓) the box. (1 mark each)

Marks Awarded

4. The *babirusa* is a type of deer.

True ☐ False ☐
