Anglia Examinations Sample Paper

Section R1 (12 marks)

Read the passages about Amy and Brian and answer the questions. For each question, choose either A(Amy) or B(Brian). You need to choose each person more than once.

Marks Awarded

Amy (A)

I'm a hotel receptionist in a famous, old town. I share a house with my brother, who is a chef. I work six days a week but not on Mondays. I work from 8 am until 6 pm. I don't have time for hobbies, like reading. Many of the hotel guests are from America. I've never been there but I want to go next year. The guests talk to me a lot about their country.

Brian (B)

I'm a taxi driver in Stenton, which is a modern town. I live with my wife there. I work every day but not in the mornings. I start at 2 pm and finish at 10 pm. I often have to wait outside the station so I read - I like books about America and its history. We went there last year. Yesterday, my favourite actor got into my taxi. I wanted to talk to him but he was talking on his phone. People are often too busy to answer my questions.

Which person, A(Amy) or B(Brian),...

works in an old town?	*example*	*A*
is married?	**1**	
works on Mondays?	**2**	
starts work earlier?	**3**	
has free time to read?	**4**	
hasn't been to America?	**5**	
would like to talk to people more?	**6**	

12

Anglia Examinations Sample Paper

Section R2 (13 marks)
Read the passage and answer all the questions.

Marks Awarded

Hedgehogs

Hedgehogs are small wild animals which live in Europe, Africa and Asia, but not in Australia or North America. There are 17 different species. They have long, hard hairs on their body called spines. These spines are sharp and can hurt if you touch them. Hedgehogs eat insects, frogs and snakes. Wild hedgehogs only live for two or three years because owls and foxes eat them. Some people keep hedgehogs as pets. Pet hedgehogs can live longer. They often live for five or six years. The oldest hedgehog that we know about was 10 years old.

Hedgehogs usually move slowly but they can run about 10 kilometres an hour. This is nearly as fast as a mouse. They are also good swimmers. Hedgehogs can't see very well but have really good senses of smell and hearing.

In summer, hedgehogs sleep all day and visit the same places every night to find food. Maya Farrow says, 'My mother told me a hedgehog started visiting our garden in September. It comes at 10.15 every night. I didn't believe her. So, one night, I hid outside in a dark corner and waited. He has appeared every night since then. But it's November now and this month he will find a secure place to build a nest. He'll go to sleep until April, when it will be easier to find food again.'

For questions 1–3, please answer in complete sentences. (2 marks each)

1. How many kinds of hedgehog are there?

2. What are spines?

3. What animals kill wild hedgehogs for food?

Anglia Examinations Sample Paper

For questions 4-8, tick (✓) the box. (1 mark each)

Marks Awarded

4. You can find some wild hedgehogs in North America.

True ☐ False ☐
