Anglia Examinations Sample Material

Section R1 (12 marks)

Read the passages about Alena and Barry and answer the questions. For each question, choose either A(Alena) or B(Barry). You need to choose each person more than once.

Marks Awarded

Alena (A)

My name is Alena and I am 24 years old. I live with my husband. There is a big park in front of our house. We often go for long walks there with our dog, Max. Max doesn't like the children or the other dogs in the park. At home, I enjoy watching tennis on the television but I have never learnt how to play it. We usually visit France every year for our holiday. This year we're going to Greece. However, I don't know any Greek words!

Barry (B)

My name is Barry. I am 26 years old. I share an apartment with my younger brother and my dog, Sara. There isn't a park nearby so Sara plays with our neighbours' dogs in our apartment. She loves other dogs and she loves children too. Every Saturday, my brother and I go to the tennis club. I am a better player than him. I go to French classes every week. In the summer I'm going to France for the first time.

Which person, A(Alena) or B(Barry),...

is younger?	*example*	*A*
is married?	**1**	
lives near a park?	**2**	
has a friendly dog?	**3**	
can play tennis?	**4**	
is learning a language?	**5**	
has been to France?	**6**	

12

Anglia Examinations Sample Material

Section R2 (13 marks)
Read the passage and answer all the questions.

Marks Awarded

Gable the Dog

Gable is a very special dog because he has an amazing memory. He knows the name of all his toys. Gable's owner, Sally, knew he was special when he was a tiny puppy. One day, she said to Gable, 'Go and fetch *rabbit*.' Sally expected him to bring back his favourite toy *dog* but he brought her the correct toy – his blue rabbit. This was the first word Sally taught him. Soon she realised that Gable knew the name of many more toys.

Sally called Dr Van de Zee from Lincoln University. He is interested in how dogs learn words and he teaches a course in animal behaviour. He was amazed that Gable understood 45 words when he was only a puppy. This is the same as a two-year-old child. Gable is now 10 years old and he has learnt 150 words. According to Dr Van de Zee, only three or four other dogs have this ability. Dogs sometimes learn 20 or even 30 words, but 10 is the usual number. From his studies, Dr Van de Zee has learnt that the size of the object is how dogs remember its name. The shape and smell of the object are not important. This is different to how people remember the names of objects.

'He really enjoys learning new words,' says Sally, 'especially as I give him a biscuit and a kiss every time he gets me the right toy.'

For questions 1-3, please answer in complete sentences. (2 marks each)

1. What was the first word Gable learnt?

2. What course does Dr Van de Zee teach at Lincoln University?

3. What does Sally do when Gable brings her the correct toy?

Anglia Examinations Sample Material

For questions 4-8, tick (✓) the box. (1 mark each)

Marks Awarded

4. As a puppy, Gable knew as many words as a two-year-old child.

True ☐ False ☐
